

Welcome to Shepherd Wheel Workshop

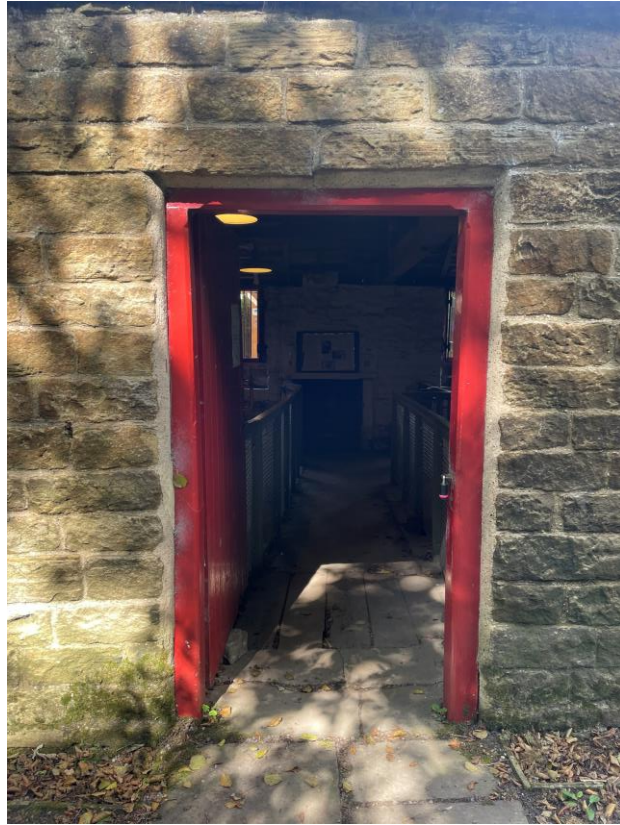

Shepherd Wheel Workshop is in Whiteley Woods, in an area called the Porter Valley.

It is free to enter and you will not need a ticket.

There is a level path to Shepherd Wheel Workshop from either end of Whiteley Woods.

This is the main entrance to Shepherd Wheel Workshop.

The entrances to the workshops are step free but the surfaces are rough and uneven.

There is working machinery inside the workshops which can sometimes be noisy.

There is a working waterwheel in the courtyard which powers the machinery in the workshops.

There is outdoor seating in the courtyard.

Next to Shepherd Wheel Workshop there is a dam which powers the waterwheel.

We hope you enjoy your visit to Shepherd Wheel Workshop.

Please get in touch if you'd like any more information about the workshop.
