

Origami *Stalk* (more advanced)

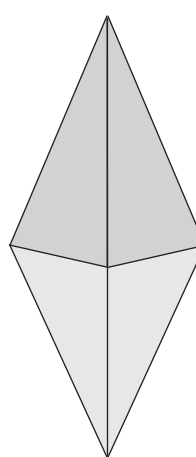

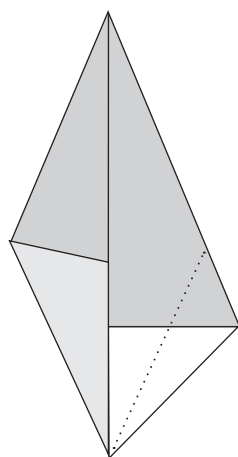

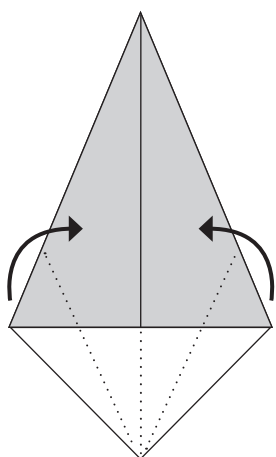

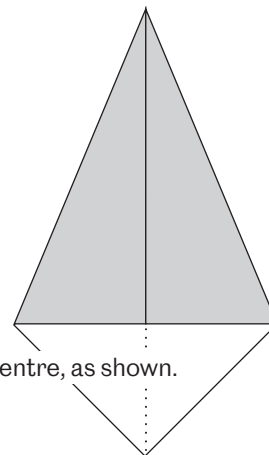

Create a stalk for your tulip, using a 20cm or larger square of green coloured paper.

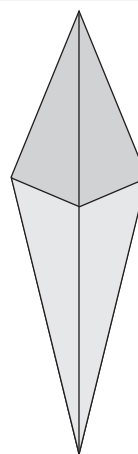

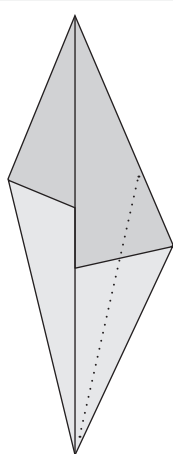

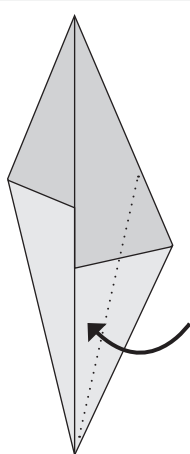

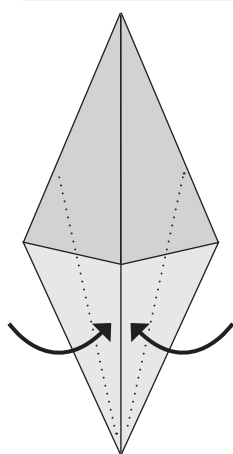

1. Take a square of green paper and fold it in half, diagonally and then unfold.

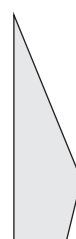

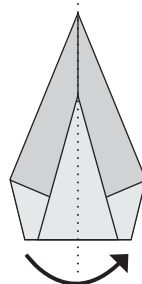

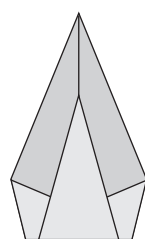

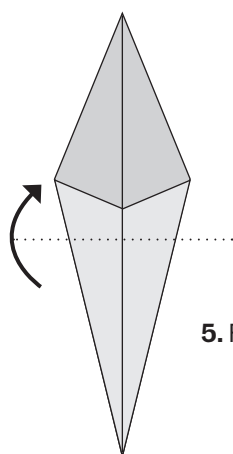

2. Fold both corners to the centre, as shown.

3. Fold both new corners to the centre, as shown.

4. And again, fold the new corners to the centre.

5. Fold in the middle and bring the top and bottom together.

6. Fold in half, as shown.

7. Gently pull the inner part out to make the stalk. To attach your tulip to the stalk, cut a small hole in the bottom of the flower head and insert the stalk.
